ABOUT US

Since our inception in 1994, Samraat Stone has become synonymous with excellence in the natural stone industry. With a proud legacy of over 30 years, we are now recognized as India's largest exporter of natural stone, supplying premium materials to global markets across North America, Europe, Asia, and the Middle East. Our relentless pursuit of perfection and a customer-centric approach has solidified our position as a trusted partner for architects, designers, contractors, and developers worldwide.

OUR MISSION

At Samraat Stone, our mission is to deliver the highest quality natural stones to every corner of the world, ensuring that each client receives products tailored to their unique needs, on time and with an unwavering commitment to excellence. We are dedicated to sourcing and exporting the finest natural stones, enhancing the beauty and durability of architectural projects globally. Our mission is to not only meet but consistently exceed customer expectations by maintaining rigorous quality standards, fostering innovation, and delivering unparalleled service.

Key Mission Pillars:

- **Excellence in Craftsmanship:** We strive to ensure that every stone we export reflects the very best of natural beauty, coupled with our high standards of craftsmanship.
- **Sustainability & Ethical Responsibility:** We are committed to ethical sourcing and sustainable practices throughout our operations. From eco-friendly quarrying methods to minimizing waste during processing.
- **Customer-Centric Solutions:** Our mission is to understand and meet the unique requirements of every client. Whether supplying materials for large-scale commercial developments or bespoke residential projects, we offer personalized service.
- **Innovation & Continuous Improvement:** We believe in the power of innovation to drive success. By continually investing in the latest technologies, from precision cutting and finishing techniques to digital stone design tools, we ensure that our clients receive the best possible products.
- **Global Reach, Local Roots:** As a proud Indian company, we remain deeply connected to our roots while serving a global audience. Our mission is to showcase the rich geological diversity of India's natural stones to the world.

OUR VISION

To set the global standard for the natural stone industry by delivering not only exceptional products but also innovative solutions that enhance the architectural landscape worldwide. We envision a future where Samraat Stone is recognized as the premier supplier of sustainable, high-quality natural stones, driving progress in the construction and design industries. By integrating cutting-edge technology, ethical practices, and an unwavering commitment to customer satisfaction, we aim to be the most trusted name in natural stone across all continents. We aspire to lead with a focus on sustainability, shaping a world where natural beauty harmonizes with environmental responsibility.

Core Vision Elements:

- **Global Industry Leadership:** To maintain and strengthen our position as the largest and most innovative exporter of natural stone from India, setting benchmarks in quality and customer satisfaction.
- **Sustainability & Innovation:** To be a pioneer in sustainable quarrying and processing methods, minimizing our environmental footprint while delivering products that stand the test of time. We aim to integrate advanced technologies such as robotic cutting, digital modeling, and eco-friendly practices into our production lines.
- **Aesthetic & Functional Excellence:** To continually redefine the aesthetic possibilities of natural stone, inspiring architects, designers, and builders with both classic and contemporary options that balance beauty with functionality.

SAMRAAT STONE

STONE TEXTURE

TOP SURFACE

The natural, unprocessed surface of the stone, retaining its original texture as quarried. It offers a rustic, organic feel, ideal for outdoor applications like pathways and garden landscaping.

BOTTOM SURFACE

The underside of the stone, typically left untreated or slightly roughened to enhance grip during installation. This ensures stability when laid on mortar or other bedding materials.

NATURAL/RIVEN

A naturally split surface with an uneven, rustic texture that highlights the stone's organic character. This finish adds visual depth and slip resistance, perfect for patios, pathways, and garden features.

SAWN

A smooth, flat surface achieved by cutting the stone with a diamond-tipped saw. It offers a modern, refined appearance with minimal texture, ideal for sleek indoor flooring and contemporary outdoor spaces.

POLISHED/HONED

A polished finish provides a glossy, reflective surface, enhancing the stone's color and pattern. Honed offers a smooth, matte finish with reduced shine, perfect for elegant interiors and slip-resistant flooring.

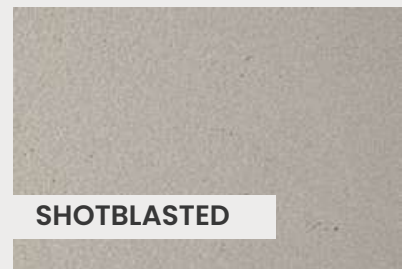

SANDBLASTED

A textured finish created by blasting the stone surface with high-pressure sand, giving it a frosted, matte look. This enhances slip resistance, making it ideal for outdoor areas and wet zones.

HALF/HONED

A semi-polished surface with a subtle sheen, balancing between matte and glossy. It preserves some natural texture while offering a smoother feel, ideal for spaces requiring both elegance and slip resistance.

SHOTBLASTED

A textured finish achieved by blasting the stone surface with steel shots, creating a subtle, pitted effect. This finish enhances slip resistance, making it suitable for outdoor areas and high-traffic zones.

TUMBLED/AGED/RESTORE

This finish softens the stone's edges and surface through mechanical tumbling, creating a weathered, antique appearance. It offers a timeless, rustic charm, ideal for patios, pathways, and vintage-style interiors.

FLAMED

A rough, textured finish created by exposing the stone to intense heat, causing the surface to burst and become grainy. This enhances slip resistance, making it perfect for outdoor areas and wet surfaces.

BRUSHED/ANTIQUE

A finish achieved by brushing the stone surface with abrasive tools, giving it a soft, worn-in texture. This technique imparts an aged look, ideal for adding character to both indoor and outdoor spaces.

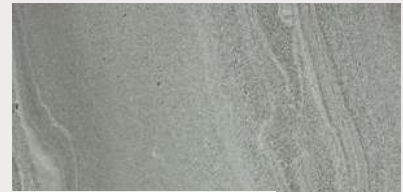

BUSH HAMMERED

A heavily textured finish created by hammering the stone with pointed tools, producing a dimpled surface. This enhances grip and slip resistance, making it ideal for outdoor spaces and high-traffic areas.

ROCKFACED/MUSHROOM

A bold, rugged finish with a protruding, chiseled surface that mimics natural rock formations. This finish adds depth and texture, often used for accent walls, façades, and garden elements.

CALIBRATED

A precision finish where the stone is machine-cut to ensure uniform thickness across all tiles. This process simplifies installation and creates a smooth, even surface, ideal for modern flooring and wall cladding.

INNOVATIVE TEXTURE

HALF HONED+BRUSHED+TUMBLED

This multifaceted finish combines a subtle sheen with a soft, textured surface. The half-honed aspect offers elegance, while brushing and tumbling enhance slip resistance, making it perfect for both rustic and contemporary spaces.

HONED+TUMBLED

This finish features a smooth, matte surface with rounded edges and a gentle texture from tumbling. It provides a sophisticated yet rustic look, ideal for enhancing slip resistance in both indoor and outdoor applications.

NATURAL+BRUSHED+TUMBLED

This finish showcases the stone's organic beauty with a lightly textured surface. The natural aspect retains the stone's original character, while brushing and tumbling add a soft, worn appearance, perfect for creating inviting spaces.

SATIN

A soft, smooth finish that offers a subtle sheen without the high gloss of polished surfaces. This finish enhances the stone's color and texture while providing a slip-resistant surface, ideal for both residential and commercial applications.

VELVET

A luxurious, ultra-smooth finish that provides a soft, matte feel with a gentle sheen. This finish enhances the stone's color depth while minimizing glare, making it perfect for elegant interiors and sophisticated spaces.

LEATHER

A unique finish that mimics the look and texture of leather, offering a soft, tactile feel. This finish adds warmth and character, making it ideal for stylish interiors and contemporary spaces while providing slip resistance.

EDGE CUTTING STYLES

Varied edge finishes enhance the stone's aesthetic diverse design preferences

Handcut

Crafted manually to showcase the artisan's skill, this edge style features irregularities that add character and a rustic charm to the stone.

Straight Handcut

Precision-crafted edges that maintain a straight line while reflecting handcrafted artistry. This style combines elegance with a natural, artisanal touch.

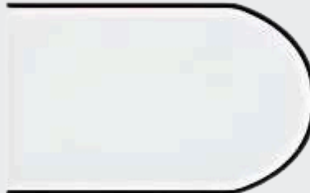

Machine Cut/Sawn

Uniform edges achieved through precise machinery, providing a clean, modern appearance. This style ensures consistency.

Chamfered/Beveled

Edges are cut at an angle to create a softened, decorative profile. This style enhances safety and visual appeal, perfect for modern interiors.

Bullnose

Rounded edges that provide a smooth, soft appearance, eliminating sharp corners. This style adds elegance and safety, ideal for countertops edges.

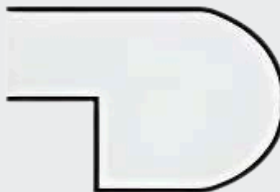

Half Bullnose/Owl's Beak

A subtle, rounded edge that softens the stone's profile while maintaining a slight flat surface. This style combines elegance with practicality,

1/4 Round

A gently rounded edge that offers a soft transition between surfaces. This style adds a delicate touch, enhancing the stone's overall aesthetics and safety.

Coping Edge

A specially shaped edge designed for pool decks or ledges, providing a smooth transition and enhancing safety. adding a finished look.

Chisel

An intentionally rough, textured edge created using chiseling tools, adding a rustic, handcrafted appearance. ideal for and outdoor applications.

Broken

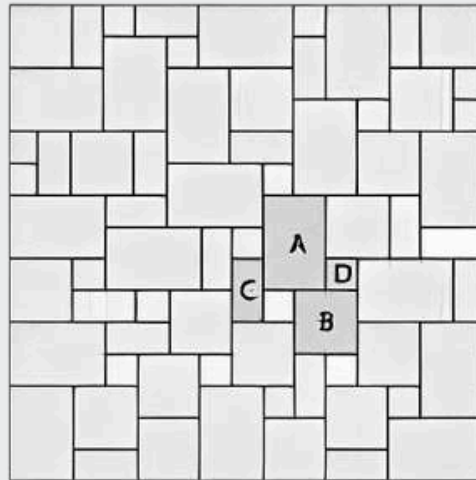

An irregular, fractured edge that showcases the stone's natural, rugged beauty. This style adds a raw, organic look, perfect for rustic designs and outdoor settings.

FEATURES OF SAMRAAT STONE PREMIUM SANDSTONE

Weather Resistance

Sandstone is known for its exceptional durability, making it perfect for both indoor and outdoor applications.

Natural Beauty

Available in a wide range of earthy tones such as beige, red, yellow, and brown, sandstone brings a natural charm to any project.

Non-Slip Surface

provides a non-slip surface, making it a safe choice for areas prone to moisture, such as pool decks, outdoor walkways, and driveways.

SAMRAAT STONE

Natural Stone

SANDSTONE

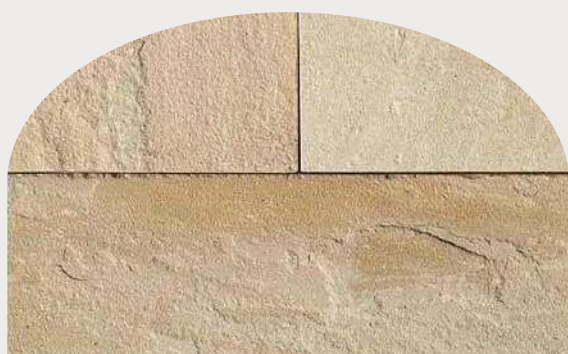

Kandla Grey Sandstone

Kandle Grey Sandstone is a sophisticated natural stone that captivates with its elegant grey tones, accented by subtle beige and charcoal hues. Its unique color variations add depth and character, making it a versatile option for various architectural and landscaping applications.

Raj Green Sandstone

Raj Green Sandstone is a captivating natural stone that features rich green tones complemented by subtle hints of brown, grey, and gold. Quarried from the scenic Rajasthan region of India, this sandstone is prized for its exceptional durability and aesthetic appeal.

Buff Sandstone

Buff Sandstone is a beautifully subtle and warm-toned natural stone, known for its creamy beige color and gentle brown highlights. Quarried from Rajasthan, India, this sandstone brings a sense of calm and natural beauty to various architectural and landscaping projects.

Sagar Black Sandstone

Sagar Black Sandstone is a stunning natural stone, renowned for its deep black color and fine-grained texture. Quarried in the heart of India, this sandstone is a testament to natural beauty and durability.

SAMRAAT STONE

White Mint Sandstone

White Mint Sandstone is a captivating natural stone that enchants with its stunning white base and delicate mint green and beige undertones. Quarried from select regions in India, this sandstone offers an elegant solution for those seeking to create airy and sophisticated spaces.

L. Grey Sandstone

Grey Sandstone is a versatile and elegant natural stone that captivates with its soft, neutral grey tones and smooth texture. Quarried in India, this sandstone is a favorite among architects and designers looking to create modern, minimalist spaces or to add a touch of calm, natural beauty to traditional settings.

Modak Sandstone

Modak Sandstone is a stunning natural stone celebrated for its rich shades of pink, peach, and beige. Quarried in India, this sandstone brings warmth and elegance to any setting, making it a favored choice among designers and homeowners alike.

Mandana Natural Sandstone

Mandana Sandstone is a stunning natural stone that showcases an exquisite blend of rich red and earthy tones, often enhanced with subtle hints of brown and orange. Quarried from the Rajasthan region of India.

L. Yellow Natural Sandstone

Yellow Sandstone is a radiant and durable natural stone, prized for its warm golden-yellow hues and fine-grained texture, this sandstone is widely used in both residential and commercial projects for its beauty, resilience, and ability to create welcoming environments.

Kota Desert Sandstone

Kota Desert Sandstone is a versatile and durable natural stone known for its warm desert-like hues, ranging from beige to light brown. This sandstone is celebrated for its natural beauty and resilience, making it a favorite among designers and architects for both indoor and outdoor applications.

Karoli Black Sandstone

Black Sandstone is a striking natural stone that captivates with its deep black color and fine texture. This sandstone is celebrated for its sophisticated appearance and versatility, making it an ideal choice for a wide range of architectural and landscaping projects.

Yellow Mint Sandstone

Yellow Mint Sandstone is a captivating natural stone that enchants with its warm yellow hues and subtle mint undertones. Quarried in India, this sandstone is an ideal choice for those seeking to infuse their spaces with warmth and character.

Jaisalmer Yellow Sandstone

Jaisalmer Yellow Sandstone is a stunning natural stone that captivates with its warm golden-yellow tones and fine texture. This sandstone is cherished for its unique color variations and remarkable durability, making it a favored choice for various architectural and landscaping applications.

J. Red Sandstone

Red Sandstone is a captivating natural stone known for its stunning reddish hues and unique texture. This sandstone is a favorite for architects and designers seeking to add warmth and elegance to their projects. Its rich colors and distinctive appearance can complement various design styles, from rustic to contemporary.

J. Pink Sandstone

J. Pink Sandstone is a beautifully soft-hued natural stone that captivates with its delicate pink shades and subtle variations. This sandstone is revered for its aesthetic appeal and versatility, making it a favored choice for a myriad of architectural and landscaping applications.

Fossil Mint Natural Sandstone

Fossil Mint Sandstone is a remarkable natural stone that enchants with its soothing mint green color, beautifully interlaced with fossilized patterns that tell a story of nature's artistry. Making it an ideal choice for a wide array of architectural and landscaping applications.

Flowery Gold Sandstone

Flowery Gold Sandstone is a stunning natural stone that captivates with its golden-yellow color, enhanced by intricate floral patterns and unique veining. Its warm tones and decorative designs make it a perfect choice for both residential and commercial projects.

Dholpur Beige Sandstone

Dholpur Beige Sandstone is a beautifully understated natural stone celebrated for its warm beige tones and subtle variations that evoke a sense of timeless elegance. This sandstone has become a favored choice for architects and designers due to its versatility and aesthetic appeal.

Desert Mint Sandstone

Desert Mint Sandstone is a striking natural stone that features an enchanting blend of mint green and beige hues, delicately interwoven with light brown and grey accents. Making it a favored choice for both residential and commercial applications.

Camel Dust Sandstone

Camel Dust Sandstone is a captivating natural stone celebrated for its warm, earthy tones, which encompass shades of beige, cream, and light brown. Its soft texture and muted colors create a soothing atmosphere, making it a favored choice for various design projects.

Autumn Brown Sandstone

Autumn Brown Sandstone is a captivating natural stone that radiates warmth and elegance through its rich shades of brown, rust, and subtle hints of gold. This sandstone offers a unique blend of durability and aesthetic appeal, making it an ideal choice for both residential and commercial spaces.

Asian Gold Sandstone

Asian Gold Sandstone is a captivating natural stone that radiates warmth through its rich golden-yellow color, often adorned with shades of beige and light brown. This sandstone is celebrated for its exceptional beauty and durability, making it a popular choice for both residential and commercial applications.

Antique Sandblasted Sandstone

Antique Sandblasted Sandstone is a popular natural stone known for its weathered appearance and textured surface. The sandblasting process gives the stone a rough yet refined texture, making it visually appealing and slip-resistant.

Agra Red Honed Sandstone

Agra Red Sandstone is a remarkable natural stone, renowned for its stunning vibrant red hues, often accentuated with undertones of orange and brown. Its rich coloration and texture make it a sought-after material for a variety of architectural and landscaping applications.

Rainbow Sandstone

Rainbow Sandstone is an extraordinary natural stone celebrated for its wave-like patterns and rich colors, reminiscent of a rainbow. Rainbow Sandstone is a versatile, durable, and low-maintenance choice, ideal for creating luxurious and unique designs.

Teakwood Sandstone

Teakwood Sandstone is a distinctive natural stone that stands out for its unique teak wood-like appearance, complete with beautiful wood-grain patterns in soft, warm tones. Its durability and low maintenance requirements make it suitable for areas with moderate to high traffic.

Toskana Sandstone

Sagar Black Sandstone is a stunning natural stone, renowned for its deep black color and fine-grained texture. Quarried in the heart of India, this sandstone is a testament to natural beauty and durability.

Natural Stone Steps

Natural Stone Steps are a timeless addition to any property, offering both functionality and aesthetic appeal. Whether used in a garden, as part of a staircase, or to create a beautiful pathway

Sandstone Walling

Sandstone Walling is a beautiful and durable natural stone solution for both residential and commercial building projects. Quarried from the renowned sandstone regions of Rajasthan, India, these stones are ideal for creating visually stunning walls with a natural, rustic appeal.

Sandstone Palisades

Sandstone Palisades are an elegant and durable natural stone option ideal for defining outdoor spaces. Quarried from Rajasthan, India, these palisades are perfect for creating visually stunning garden borders, retaining walls, and other landscape features.
